CSCI 590/591 – Graduate Seminar  
Fall 2021

Time:  T 4pm  
Place:  CF 316  
Instructor:  Phil Nelson  
Office/Phone:  CF467, 650-3035  
Web:  https://facultyweb.cs.wwu.edu/~phil  
E-mail:  phil@wwu.edu  
Office Hours:  TH 11:00am, others by appointment. If you send me e-mail, please use plain text (no HTML please) messages.

Description:  This class class is intended to provide introduction to many topics in Computer Science via listening to presentations and giving presentations of papers in the literature.

Grading:  Attendance at 70 percent of the classes and for CSCI 591 students, presentation of a paper to the class. If you miss 4 class periods, you will receive an U for your grade.

Presentations:  Each 591 student will present a paper to the class during the quarter. Given the number of students in the class, we will have to have four presentations in at least two class periods and three presentations for all other class periods. On days with four presentations, your talks must be no longer that 10 minutes and no shorter than 9. On days with three presentations, your talks must be no longer than 15 minutes and no shorter than 13.
